

GHANA PROJECT BRIEF

The Global Risk Modelling Alliance is initiated by the Vulnerable Twenty (V20) Group and Insurance Development Forum (IDF), and is hosted by the InsuResilience Solutions Fund (ISF). The GRMA is a public-private partnership that brings access to climate and disaster risk insight to vulnerable countries, working with ministries as well as local actors from private sector and academia for capability development. It focuses on:

01

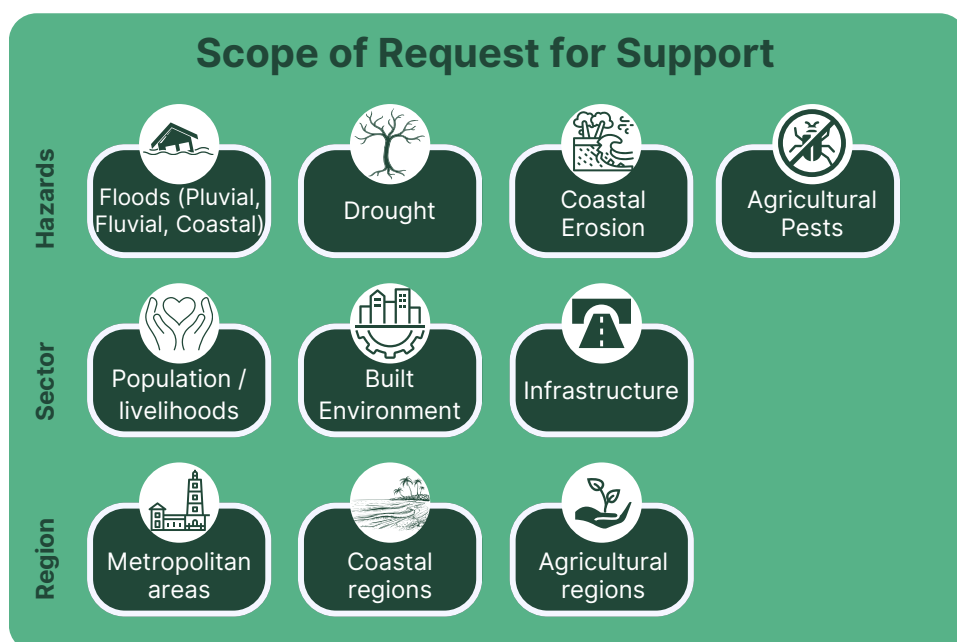

Good quality and more granular risk data to help with targeted disaster risk response and planning.

02

Locally adjusted models for prioritized hazards.

03

Capability development to build sustainable, autonomous risk analytics to guide, incentivize, and accelerate public and private sector investments.

Timeline

GS & GRMA Identified Support Areas

- **Development of data and models and related capability development for three key sectors:**
 - Agriculture: focusing on staple and cash crops to enable targeted climate and disaster risk planning for food security.
 - Coastal resilience: focusing on people, loss of land and built environment.
 - Urban resilience: focusing on people and private infrastructure; current and future loss and damage.
- **Development of Climate and Disaster Risk Finance and Insurance (CDRFI) solutions along the same.**

National Partner

- ☑ Ghana Ministry of Finance

Pathfinder Country

The GRMA is selected as a key resource to support the Global Shield In-Country Process in Ghana.
